Our Lisburne School ~ new building update

26th May 2022

Dear parents and carers

We wanted to share all of the recent information and updates that we have been given by the local authority and Kier construction regarding our new school building on the Fairway. We continue to meet regularly with the LEA and the planning team to develop the school and ensure that the needs of all our pupils are met. Construction of the new site continues to be well underway, however we have been notified that there have been a few technical issues which have slightly delayed the projected completion date.

The building will now be completed next summer (2023), this new date reflects the delays. We will continue to keep all of our parents and carers updated regarding the exciting progress with Lisburne's new school and know that you'll all be interested in the different phases of the construction and photos of the progress.

The building will be now completed within the summer term which will allow us to complete valuable transition information which is relevant and bespoke for all of our children. The Governors and senior leaders have decided to allow ourselves the summer term to complete snag lists and rectify any issues to ensure these are remedied before the children arrive. **Lisburne will therefore be moving all 3 sites together into the new building at the start of the new school year in September 2023 with a clear structure and phased transition process in place for all of our children.** Please be assured that your child's individual needs will be our priority and we look forward to working together with our families to ensure this is a smooth process.

If you have any concerns please don't hesitate to contact us, thank you for your continued co-operation and support.

Kind regards

Sam Benson – Headteacher
